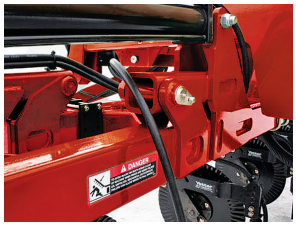
Farm King

Liquid application allows you to control your inputs and increase yields. Timely application places nitrogen when it is needed and supplements the nitrogen that was applied last fall.

Dual hydraulic cylinders raise and lower the double 4" x 4" toolbar.



Heavy-duty 4" x 6" double mainframe and wings.

› Custom tanks, sumps, and saddles up to 1600 gal.

› Rock shaft & dual cylinder toolbar lift design

CONTROL YOUR NITROGEN. CONTROL YOUR YIELD.
