Farm King

The new 1860 and 2460 liquid applicators from Farm King provide an industry leading crop clearance to extend your liquid application window. The 1860 and 2460 have an impressive in row crop clearance of 36" and more than 54" of crop clearance on headland or turning rows. A custom designed asymmetrical tank helps maintain a consistent tongue weight regardless of the product volume in the tank.

› 60' Toolbar › 1800 or 2400 US gallon tanks › 24 row 30" 32 row 22" and 36 row 20" spacing configurations

EXTEND YOUR APPLICATION SEASON.
